

Port Data

Enhanced Port Information

PD

Partnering with IHS Fairplay, ChartCo has taken comprehensive port data, combined it with other additional services, produced a weekly update service and in the process created an expert source of global port information.

This detailed port information can be combined with chart and routing data to provide comprehensive passage plans.

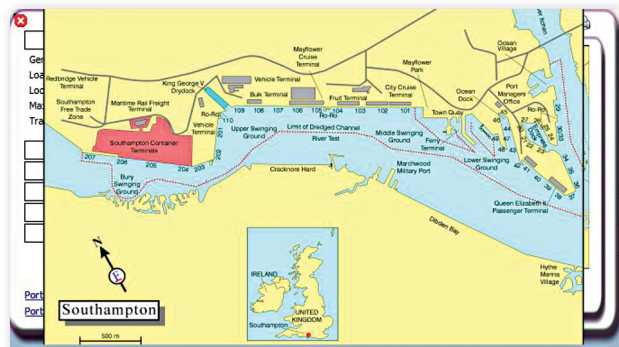

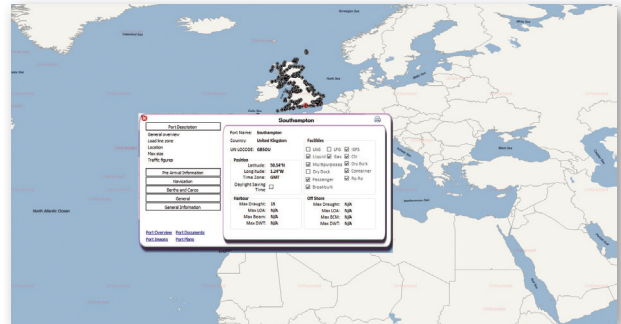

ChartCo's service includes a complete description of the port and all the relevant facilities, plans and mooring diagrams, together with contact details of port service providers and agents. It also includes a maritime atlas and port photographs. All this seamlessly integrates into PassageManager™ so that you can benefit from the most up to date maritime data available.

Benefits

- Up to date port and berthing information.
- Easily accessible port entry forms ensure that all arrival information can be completed well before arrival.
- Can be used stand-alone or with PassageManager™ to quickly create passage plans.
- Regular news updates regarding port information, easing the planning workload.

Key Features

- Updated weekly.
- Monthly CD backup.
- Available through quarterly or annual subscription.

Comprehensive global port information easing the planning workload prior to port arrival.
