

WebManager™

Online service allowing shore-based management of a vessels outfit

WM

The ChartCo WebManager™ service is available to all ChartCo Select subscribers and allows shore-based operators to view the status of a vessel's charts and publications live via the internet.

WebManager™ interfaces to third party management systems.

Allows shore-based operators to audit the vessel outfit status for the whole fleet.

If required, WebManager™ allows vessel operators to control the content of outfits.

Benefits

The WebManager™ service is presented as an easy to use online system with a user-friendly interface. Through a secure log-in, users of the system are able to obtain detailed data on all their vessels including information on the products and services onboard, any outfit changes and the current status of their chart corrections.

Using WebManager™, on-shore staff no longer need to question the vessel prior to audit.

Simple search, sort and report routine allows easy checking of outfits by office staff.

Key Features

- Download a vessel's chart outfit in a number of formats: formats supported include PDF, CSV, XML, or RTF.
- Ensure each vessel is up to date with New Editions and corrections to ensure compliant navigation.
- Password protected.
- Real time information.
- Included free as part of ChartCo service.

Requirement

- Office/shore-based.
- Internet connection.

Online information on the status of a vessel's chart and publication outfits, in the office.
